## FOREWORD

**PRINCETON** is a horticultural establishment of long standing. Many of Princeton's key men have been here from thirty to forty years. More than thirty men in important positions have over twenty years constant service. **THESE MEN KNOW THEIR JOBS.**

More than thirty families live in homes owned by Princeton.

### **WE HAVE AN EXPERIENCED, TRAINED AND COMPETENT ORGANIZATION**

With recent developments, we can irrigate more than 600 acres of our 1200 acre plant.

We have plenty of land to carry out to the fullest extent our crop rotation and soil improvement program.

### **GOOD LAND PRODUCES GOOD STOCK**

Large areas are contoured for soil and moisture conservation.

The most modern equipment, much of which is of our own design, is used to do better work at lower costs, resulting in savings which are passed along to our customers.

**OUR ASSORTMENT IS LARGE.** Pictures in this catalogue will give you an idea of the quality of our material.

Your inspection is invited.

**MAKE PRINCETON HEADQUARTERS FOR  
YOUR REQUIREMENTS.**

**PRINCETON PRODUCTS WILL MAKE YOU MONEY**

## NOTES IN EXPLANATION OF CATALOGUE

The figures following each variety indicate in feet the approximate height of that plant at maturity. Ample allowance has been made for the many physical factors that tend to modify the growth of plants in cultivation.

The botanical and common names are largely taken from the 1924 edition of "Standardized Plant Names." Changes in nomenclature according to the revised "Second Edition," which have not become generally familiar to the trade, are shown in parenthesis and cross-indexed for reference.

Our standard of grading all plants is based on a schedule which has been adopted by the American Association of Nurserymen.

To facilitate the handling of orders and to enable us to render you quicker and better service we desire where possible, especially in deciduous material, that orders be made in multiples of 10. Many varieties are tied in 10's when graded. Your cooperation will be appreciated.
